PREPsafe®

OUT OF FREEZER

17 DECEMBER 2017
SUNDAY 7:30 PM

Prepsafe Food Labels introduces 'Preppy', a user friendly, programmable label console device that calculates use by dates for all your prepared food products.

Preppy is programmed to your individual food product needs and calculates at the touch of a button

TOMATO

PREPsafe®

PREP SUN 17 DEC 7:15PM CLERK
USEBY 18 DECEMBER 2017 George

MONDAY 7:15 PM

1. product name
2. employee name
3. time and date out of freezer
4. time and date prepared
5. product use by time and date

Preppy consoles utilise commercial grade direct thermal printers, ensuring years of trouble free service and reliable label printing. Achieving a print speed of 4 Prepsafe food grade labels per second, all your food prep will be neatly labelled in seconds rather than hours
